Objectives:
To bring forth the latest scientific and clinical developments in Pathology and how they relate to one another. To present state-of-the-art in Pathology, Medicine and Biology.

Target audience:
Faculty, research associates, graduate students and residents in the Department of Pathology; faculty, associates and trainees in the School of Medicine; scientist from other facilities. Pathology seminar series information available via http://path.upmc.edu.

CME Credit
The University of Pittsburgh School of Medicine, as part of the Consortium for Academic Continuing Medical Education, is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians. The Center for Continuing Education in the Health Sciences designates this continuing medical education activity for a maximum of 1.0 hour of Category 1 credit towards the AMA Physician’s Recognition Award. Each physician should claim only those hours of credit that he/she actually spent in the educational activity. In accordance with Accreditation Council for Continuing Medical Education requirements on disclosure, information about relationships of presenters with commercial interests (if any) will be included in materials which will be distributed at the time of the conference.

The Annual Robert S. Totten Lecture

“Renal Cell Carcinoma; Beyond The Usual”

Victor E. Reuter, M.D.
Attending Pathologist, Vice-Chairman
Department of Pathology
Memorial Sloan Kettering Cancer Center
Professor of Pathology and Laboratory Medicine
Weill Medical College of Cornell University
New York, NY

Dr. Reuter is a practicing surgical pathologist involved in translational research for over three decades. His interests run the entire spectrum of neoplasms of the urogenital tract. He has directed the genitourinary pathology research laboratory at Memorial Sloan Kettering Cancer Center since 1992, focusing primarily in biomarker characterization and validation. Lately, much of his efforts have focused on the classification of renal neoplasms, incorporating newly generated molecular data to understand the morphologic diversity seen in these tumors. He served as President of the United States and Canadian Academy of Pathology and received the Koss Medal from the International Society of Urological Pathology for “eminent services in the advancement of urological pathology”. He is presently co-editor of the forthcoming World Health Organization Classification of Tumours of the Urinary System and Male Genital Organs.

Wednesday, November 12, 2014
12:00 noon
(Lunch provided)
1104 Scaife Hall
