December 2: Stephen Godin, Doctoral Candidate
Department of Molecular Genetics and Developmental Biology (MGDB)
Dr. Bernstein Lab
“The Shu complex is a conserved regulator of Homologous recombination”

December 9: Laura Garcia-exposito, Postdoctoral associate
Department of Pharmacology and Chemical Biology
Dr. O’Sullivan Lab
“Regulation of telomeres by specialized DNA polymerases”

December 16: Nianhong Chen, PhD, Postdoctoral associate
Department of Cell Biology & Physiology
Dr. Yong Wan Lab
“Identification of Deubiquitinase That Catalyzes KLF4 in Genome Stability and Carcinogenesis”

December 23: Off

Have a great holiday break!!!!
