Work-in-Progress
Molecular and Cellular Cancer Biology Program
University of Pittsburgh Cancer Institute

Schedule
Wednesdays
9:00-10:00 AM

October 7: Liang Wei, PhD
Department of Pathology
Dr. Yu Lab
“A Selective CDK4/6 Inhibitor Protects Intestinal Stem Cells from Radiation by Modulating the DNA Damage Response”

October 14: Juraj Adamik, PhD
Department of Medicine
Dr. Galson Lab
“Altered RNA Stability and A Gfi1-Induced Epigenetic Switch Regulate Runx2 Repression In Multiple Myeloma-Exposed Pre-Osteoblasts”

October 21: Emily Beckwitt, Graduate Student
Department of Pharmacology
Dr. Van Houten Lab
“Single Molecule Studies of XPA on DNA”

October 28: Jianquan Xu, Research Associate
Department of Medicine
Dr. Liu Lab
“STORM Super-Resolution Imaging in Nucleosome Organization in Breast Cancer Progression”

Hillman Cancer Center
Research Pavilion
Second Floor Conference Room
5117 Centre Ave.
Pittsburgh, PA 15213

Hosted By: Bennett Van Houten, PhD
Contact Person: Wade Nixon – nixonw@upmc.edu
