Pittsburgh Center for Bone & Mineral Research Seminar Series

Harry Blair, M.D.
Department of Pathology
University of Pittsburgh Physicians Faculty
Professor of Pathology and of Cell Biology

“Advances in the biochemistry of bone matrix formation: Epithelioid Osteoblasts Deposit Dense Hydroxyapatite in Type I Collagen in a pH Dependent Manner That Is Supported by Aquaporin 1”

Thursday – December 21, 2017
BST 1695 conference room
4:00 – 5:00 pm

Contact Person: Dianna Pappert-Fennell 412-623-1114;
