UPMC CancerCenter, Partner with University of Pittsburgh Cancer Institute, and the University of Pittsburgh School of Medicine Center for Continuing Education in the Health Sciences Presents:

21st Century Comprehensive Cancer Care: The Evolving Role of the Primary Care Provider

Date: Saturday, April 2, 2016

Time: Registration begins at 7:30am
Conference: 8:00am – 5:00pm

Location: Herberman Conference Center, 2nd Floor, Cancer Pavilion
5150 Centre Ave, Pittsburgh, PA 15232

Course Directors:

G. van Londen, MD, MSc
Director, Cancer Live Well Survivorship Program
University of Pittsburgh Medical Center-Hillman Cancer Center,
Magee-Womens Hospital of UPMC
Pittsburgh, Pennsylvania

Ira R. Parker, DDS, MA, MPH
Project Consultant
La Jolla, California

Program Goal:
The goals of this program are to:

• Provide Primary Care Providers (PCPs) with the knowledge and clinical skill-sets that will enable them to best serve their patients who are at risk for cancer or who have been diagnosed with cancer - focusing upon the practitioners' evolving role(s) in the delivery of best-practices, comprehensive cancer care, cancer screening/early detection, and decision making through “survivorship” to end-of-life.

• Promote understanding with regard to the elements involved in optimizing a “PCP-Integrated” patient-centered cancer delivery system - identification of roles, communication, and a multi-faceted information-technology system.

Target Audience:
Primary care physicians, advanced practice providers, nurses, and other primary care team members who provide direct patient care to those populations at-risk for cancer or who have been diagnosed with cancer.

Course Objectives:
Upon completion of this symposium the participant should be able to:

• Integrate new knowledge and skills needed to provide best-practice healthcare to patients at-risk for cancer or who have been diagnosed with cancer and to serve as members of an “extended” cancer care team.

• Discuss the evolving role(s) and rationale associated with the enhanced collaboration between Primary Care Providers/Primary Care Medical Homes and the Oncology Team/Oncology Care Medical Homes.

• Discuss those elements that have the potential to impact the development and maintenance of a well-functioning “PCP-Integrated” patient-centered cancer delivery system.

Tuition:
Tuition includes fees for course materials, continental breakfast, buffet lunch, and continuing education credit. The fee is $75 for physicians and $30 other healthcare professionals.

CME Accreditation:
The University of Pittsburgh School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University Of Pittsburgh School Of Medicine designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other health care professionals are awarded 0.7 continuing education units (CEU’s) which are equal to 7.5 contact hours.
