Intent and Overview

This program covers the most recent advances in the underlying mechanisms in ovarian cancer, with a focus on applying that knowledge to the prevention, detection and treatment of the disease and its recurrence. The program emphasizes molecular mechanisms and personalized medicine.

In addition, the concurrent Integrative Approaches to Care Educational Series on Thursday (see page 6) is aimed at providing women, family members, gynecologists, nurses, physician assistants and other primary care clinicians with the latest information on integrative and complementary approaches to whole-person and family care.

CDMRP Department of Defense Ovarian Cancer Academy

The Ovarian Cancer Academy, a virtual career development and research training platform, brings together a group of like-minded, talented, and highly committed early-career investigators, their mentors, and the academy Dean, and provides them with research funding and opportunities to establish these early-career investigators as the next generation of successful ovarian cancer researchers (see page 7).

Who Should Attend

This program is designed for clinicians (physicians, nurses, physician assistants, counselors), scientists, researchers, policy makers, consumer advocates, survivors, family members, and members of the general public.

Continuing Education Credit

The University of Pittsburgh School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Pittsburgh School of Medicine designates this live activity for a maximum of 14.5 AMA PRA Category 1™ credits. Each physician should only claim credits commensurate with the extent of their participation in the activity.

Other health care professionals are awarded 1.4 continuing education units (CEUs) which are equal to 14.5 contact hours.

Registration Information

Register online at: www.upci.upmc.edu/ovarian

Please note: Registration is not complete until you receive the confirmation email for your pre-registration. If you do not receive this email within 7 days of registration, please contact us at (412) 641-5418.

You must bring this confirmation with you to the conference.

Registration by Fax or Mail
If you are unable to register online, please contact the Symposium Coordinator at (412) 641-5418 or email koryakja@upmc.edu.

Registration is not accepted without payment.

Cancellation

All cancellations must be in writing and sent to the Symposium Coordinator via U.S. mail, email or fax. Tuition for cancellations postmarked or date-stamped on or before April 10, 2012 will be refunded in full. After April 10, 2012, a $35 administrative fee will be assessed. No refunds will be made after April 25, 2012.
